DISTRICT DEMOCRATS.

Getting Ready to Select Candidates to the National Convention.

HELD TOMORROW NIGHT-SOME WHO ARE SPOKEN OF AS POSSIBLE DELEGATES -OPPOSI-TION TO CLEVELAND AND WHY.

The democrats of the District are going to take a very lively interest in the selection of delegates to the national convention. The campaign has not fairly opened as yet for the reason that the date for holding the national faulty.

convention has only been recently determined decided on. Mr. John Boyle, the chairman of the District central committee, received only a few days ago the official notification that the con- and, while his investigation was general in its vention would meet in Chicago June 21, and that the District would be entitled to send two that the District would be entitled to send two local investigators; he was satisfied that while delegates. Mr. Boyle proceeded at once to set the machinery in motion, which will result in the choice of two delegates. As this machin-ery is used only once in four years it is apt to be somewhat out of repair. However, Mr. Boyle has issued a call for a meeting of the central committee to be held this evening at the rooms of the National Association of Democratic Clubs in the Washington Loan and First building. At that meeting any repairs will be attend to, and it is expected that there the machinery will work with the usual smoothness and celerity that characterizes the political action of the democratic party of the District. It is not meant to be implied that there is a democratic political machine here in the Dis-trict. The use of the mechanical figure had reference solely to the process by which results

MEMBERS OF THE CENTRAL COMMITTEE. The members of the central committee by districts are as follows: First, W. H. Rose; second, R. E. L. White; third, William M. Manond, R. E. L. White; third, William M. Manogue, fourth, W. A. Hutchins; fifth, B. Kilmartin, treasurer; sixth, Dr.W.O. Baldwin; seventh, John Boyle, chairman; eighth, T. V. Noonan; ninth. Charles A. Krause; tenth, a vacancy; eleventh, a vacancy; twelfth, C. W. Darr; thirteenth. J. Fred Kelly, corresponding secretary; fourteenth, Julius Hugle; fifteenth, a vacancy; sixteenth, James F. Brown, secretary; seventeenth, Jackson Yates; eighteenth, J. F. Clark; nipsteenth, B. J. Kennedy; twentieth, Edward nineteenth. R J. Kennedy: twentieth, Edward Lynch; twenty-first, M. I. Weller; twenty-second, George W. Talbert. The vacancies which exist, owing to the

changes that have taken place during the past four years, will be filled by the committee at the meeting this evening. Authority was given to the committee by the last convention to fill vacancies. Some of the members have left the city and others have resigned.

The advisory committee is constituted as fol-

lows: Wm. Dickson, Lawrence Gardner, Chas. J. Thompson, jr., Thos. J. Luttrell, Jas. L. Norris, Henry E. Davis, John S. Miller, M. A. THE DISTRICT CONVENTION.

The central committee will determine upon the time and place for holding the primaries in the various districts, when delegates will be elected to the District convention. It is expected that the primaries will be held the latter part of March or early in April. The con-vention, as is customary, will be held in the evening of the day following the holding of the primaries. The selection of the date will depend mainly on the arrangements that can be made to secure the use of the necessary halls. It is proposed by some that a registra-tion for voters be established, but it is likely that the custom that has been in vogue of opening the polls in the various districts and allowing all who claim residence in the disdistricts to vote will be followed. CANDIDATES ACTIVE.

opposition then to Mr. Cleveland. There is op-

position to him now. He is charged with being against the principle of home rule in the District, and it is claimed that a majority of

the District democrats are in favor of the prac-

tical execution of this principle in the be-stowal of District patronage. It is said that Mr. Cleveland has not added to the number of his friends in this District during the past four years. However, he has friends here, men who have influence in District politics, and if they are going to make a fight for Cleveland the contest will be made rather intention.

in the District favor Mr. Hill. The disposition seems to be to take up neither of these men, but to give their support to some other candi-date. It is surmised that if Mr. Gorman needed the votes of the District delegates he would be

AN EXAMINATION OF THE SYSTEM.

was sound and satisfactory.

CREEP INTO THE SENATE CHAMBER.

An Exhaustive Examination of the System Race Bills in New Jersey. In the New Jersey assembly last night Mr HOW THE PURE AIR IS STORED AND PUMPED INTO Parker of Monmouth introduced the longlooked-for race bills. One provides that the THE DUCTS-THE FANS AND HOW THEY ARE OPERATED-NO IMPURE SMELLS ALLOWED TO practice of bookmaking and betting upon horse races within the inclosed grounds of any association shall not constitute a misdemeanor or A few Senators have been much disturbed of be indictable for holding said races therein. late because they have been unofficially in-

The other authorizes boards of freeholder to license any association or body incorporated or owning a race course in any county to use it for the running of horses for purses or plate or other thing. The license shall be for five and committee rooms. Very naturally a good years and shall prescribe the number of days deal of personal interest was aroused by allegaand months each year in which the right may be executed. The license fee, payable to the county, shall be 5 per cent of the gate receipts, and shall be turned over within thirty days after the end of the month. Wherever racing takes places associations racing without a license shall be liable to a fine of \$500 tions that disease romped into the chamber at tered the committee rooms through the exhaust pipes in the stationary washstands. When a a day.

Both bills were referred to the committee on

revision of the laws and they will be vigorously revision of the laws and they will be vigorously opposed by the anti-racing associations of the state, whose representatives were numerous about the capitol.

The republicans called a joint caucus to consider the race-track bills, but after sitting till

flict may at times result in favor of the human, but when the assailant plants his arrow in a man who is engaged in no more harmful occupation than that of removing extraueous impurities from his hands and face there is but little opportunity for defense.

It has been charged that the entire heating, ventilating and plumbing system in the Senate wing of the Capitol is faulty. This sweeping statement received decided support from the health officer and the District inspector of plumbing. Then came a special report from one of the most eminent specialists in the United States. nearly midnight could not agree on a party attitude toward them. There was opposition from members located near some of the tracks to a committal of the party to a hostile atti-tude. It looks now as if the matter will have to be discussed in the legislature altogether apart from partisan lines and on the merits of the bills. most eminent specialists in the United States.

The "Colonels" Want Brown. At a meeting of the directors of the Louis ville club Saturday night the proposition of most of the plumbing was a trifle ancient it Chicago for the exchange of Pfeffer and Wilmot for Brown and Canavan and Philadelphia's It is claimed by those who are in accord with Brown were rejected. The directors decided that both men would be retained. the eminent specialist referred to that only

pure air is served to the Senate. Sunday Zimmerman Sails for Europe. morning a Stan reporter examined the system by which exygen is pumped into the senatorial presence. All the air enters the main duct through a stone cylinder which stands in the Arthur A. Zimmerman, the bicyclist of the New York A. C., sailed for Europe on Saturday, to be gone six months. He will compete in all grounds on the west front. This tower is 25 feet high and has an area of 80 square feet. The main duct is about 500 feet long and 100 square feet area. It is of plain brick and clean as any tunnel could be. There is a complete absence of dirt or odor. The brick absorbs the moisture with which with respect to the same of the same the principal cycling events during the season. Mr. Zimmerman has really been aided in his plans by Mr. Atwater, chairman of the racing board, who took a telegraphic note on his reinstatement. He telegraphed five times in one ture with which the atmosphere is sometimes too heavily charged and thus aids the responsible authorities in a most difficult task. Some of the critics have suggested the lining of this day to one member of the board who was away from home. Mr. Atwater's summary action in declaring that Zimmerman had violated the smatenr rule was decided on in conversation with Zimmerman's brother-in-law, who had full power to act for Zimmerman. There was no doubt about the violation of the rule. Zimmerman humidity in the atmosphere when it reached the Senate than would be found in the outer admitted it and sent his brother-in-law to air. When the air is too dry the trouble can be remedied by means of water sprays, but it is extremely difficult to extract a large percentallow Zimmerman to sail when he wished. with his record cleared up, Chairman Atwater promptly decided that he had violated the age of moisture and at the same time keep up mateur rule and at once set to work to secure the supply. Even on Sunday, when the rain was pouring down outside, there was no drip in the duct. Had marble or cement been substituted for the rough brick surface there would his reinstatement. Not one of Zimmerman's friends could have worked harder for him than Atwater did. Zimmerman now has a clear record as an amateur. The regular course of procedure would have kept him in this country several weeks longer and he would have lost that much time of training abroad. The case was exceptional and Chairman Atwater used his judgment in the emergency. Wheelmen may criticise his judgment, but they should Atwater did. Zimmerman now has a clear have been continuous condensation and a generally unmanageable condition of affairs. A cemented duct would result in a 10 per cent increase of humidity in the Senate cham-ber. With the humidity at 70 and the temhis judgment in the emergency. Wheelmen may criticise his judgment, but they should bear in mind the end he had in view before perature at 72 (the average) Senators would perspire without the slightest exertion and the atmosphere would be extremely oppressive. The matter of temperature and humidity calls for the most skillful attention. The tempera-
